

South East Court Roman Way
Whetstone Neighborhood Watch

General Information

First I would like to assure you that we live in a very safe neighborhood. However, we should not make ourselves vulnerable by leaving cars or your house doors open. I would also suggest that you keep your cars in the garage. Remember, they are very costly and they would be protected there. The garage will also protect your cars from UV radiation and other environmental effects.

The main purpose behind the watch is to keep all neighbors informed on details related to security in Whetstone. If you see something suspicious, please call the non-emergency number of the Montgomery County Police Department 301.279.8000.

If you believe the activities may affect your neighbors, please contact them. I suggest you register with the Whetstone Neighborhood Watch by sending an email to WhetstoneNeighborhoodWatch-subscribe@yahoogroups.com. You can also visit the web site at <http://groups.yahoo.com/group/WhetstoneNeighborhoodWatch/> and register there. Most of you should be familiar with Yahoogroups. There are usually very few message posted, you don't have to worry about too much mail.

You can, additionally, contact others in the court, if you believe the suspicious activity may affect them.
